

# CITY OF CHOWCHILLA CALIFORNIA

## NEW UTILITY RATES FOR 2020

City Council approved a utility rate structure for the city water, wastewater utility system, and solid waste. Utility rates furnish funding for the operation, maintenance, and replacement costs to provide city water, wastewater, and solid waste service to customers.

Upon presentation to the City Council on April 8<sup>th</sup>, 2020, a utility rate change was approved on June 23<sup>rd</sup>, 2020. The utility rate changes will occur July 1<sup>st</sup>, 2020, and will be reflected in the August 1<sup>st</sup>, 2020 billing. The amount of increase will depend on the type of property, such as residential, commercial, industrial, etc.

The rate change sheet to the right reflects the new rates for residential water, wastewater, and solid waste rates. The new commercial rate changes are listed on the backside.

If you have questions about the rate increase, or if you need help with your utility accounts, call the Finance/Utilities Department at (559) 665-8615, ext. 783.

<b>Residential Water Service Rate Change</b>	
Metered Residential Customers	2020 Rates
Meter Charge (1-inch size)	\$ 22.00

<b>Metered Residential Customers Water Usage Charge per 100* cubic feet used</b>	
	2020 Rates
Water used up to 1,800* cubic feet	\$ 1.11
Water used in excess of 1,800* cubic feet	\$ 1.43

<b>City-wide Water System Upgrade Project For All Customers</b>	
	2020 Rates
Install first-time new meter**	\$ 6.51
Retrofit existing meter	\$ 2.44

\* One cubic foot equals 7.48 gallons; 100 cubic feet equals 748 gallons; 1,800 cubic feet equals 13,464 gallons.

\*\* In 2004, the California State Legislature passed a law requiring utilities to charge water customers based on the actual volume of water used, requiring the installation of water meters for all homes and businesses.
